FOR IMMEDIATE RELEASE

National Prayer Events Cover the Nation with One Singular Goal: A Great Awakening

The first Great Awakening set the stage for the birth of the nation. Now, multiple ministries are partnering together, praying for another Great Awakening to save it.

After months of vision casting, in March, an unprecedented coalition of national ministries started a national prayer movement hosting the first 'America's Prayer Meeting' broadcast at a global denominational headquarters in Tennessee. This program spanned over two days and featured many denominations gathering with one purpose; to step outside their denominational walls and hold desperate, intimate prayer for our country. Thousands watched live, and this quickly grew to hundreds of thousands concurrent viewers.

With the purpose of a Great Awakening crying out to God, asking for 1 million souls coming to Christ, the mission continues to grow. Now, the organizational union of ministry partners announces a broader partnership strategy for July and beyond.
